

Implant Referral Form

(This information will be held in strict confidence)

**TOWNLEY HOUSE
DENTAL PRACTICE**

Thrapston
DENTAL CENTRE

I can accept all referral cases from a single implant to complex sinus lift/ bone augmentation and full mouth rehabilitation cases. I am also able to offer diagnosis and treatment by using our 3D scanner. I can provide flapless surgery which may avoid bone grafting and can be used for many situations, including the 'all on four' procedure.

I can also provide implant placement only and allow you, the practitioner, to complete the restorative phase. Advice can be easily supplied on the best restorative choice of procedures and components. We can use either Nobelbiocare or Straumann implants. We now routinely use Eurotechnika implants, who are the largest

manufacturer of implants in France. These are compatible with Nobelbiocare and Straumann restorative items. We can also provide the wrench and screwdrivers at no charge to restore these cases.

It is our top priority to continue to provide a close relationship with all our referring colleagues. I can assure you that any patients referred will only be consulted on their implant treatment. Any requirement or interest in other areas, will always be referred back to their own dentist.

**Mr Martyn Hayward
